Before you lies now one of the roads followed by the Old Ones and human kind alike.

This is the first greeting to those who are willing to take the road.

There is a new Witch World book in preparation, as well as fourteen in the past. There will be from time to time, news of further discoveries from out the magic lands for those who have asked for such so much in the past. We have listed the present Witch World books on the columns of the gate. There will also be some more coming surprises for those who follow the adventures of the Tregarths, the Wereriders and the people of Arvon.

The Old Ones are preparing some true treasure trove to be revealed in due course of time. First of which, is an actual, unabridged talking copy of the beginning Witch World Chronicle, a numbered item from its beginning.

Those of you who are visitors to the realm may address questions to the Council.

This is the second greeting to Witch World visitors.

The Guardians wish to announce, that not only is there a new Witch World novel in preparation, but in addition the Old Ones are collecting enough tales to form a two volume anthology. As was promised earlier that there would be some treasure trove, the Guardians now wish to proclaim that one can listen to as well as read the first volume of the Witch World history. This is a true collectors' item, limited in number, unabridged and accompanied by special art work, as well as an autographed picture of the chronicler. This can be enjoyed when it is not easy to read the book.

Also, the Council wishes to introduce a selection of correspondence cards bearing the portraits of the Griffin family which hitherto have never been so reported.

For both, the spoken chronicle and these portraits of the Griffins, address inquiries to:

The Guardians of the Gate
P.O. Box 747
Winter Park, Florida 32790

In the future, the elvish craftsmen will share amulets and talismanic jewels with those beyond the Greater Gate.

May the blessings of Gunnora bring you Good Fortune.
