Dear Ingrid and Andre,

I'd love to participate in the astrology-based anthology. I'm a Capricorn, and I want to do my own sign. You know the problem about Capricorns, don't you? We're so rigid that I don't know if I could get into the mindset of another sign.

My guess is that the story will be something about survival; Capricorns are the survivors of the Zodiac.

Please let me know if this is OK.

All the best,

Susan Shwartz
